

DESPRO WATER SUPPLY AND SANITATION IN AMALGAMATED COMMUNITIES

Providing the population with quality water supply and waste water treatment is a real challenge for many amalgamated territorial communities (ATCs). This sphere requires a comprehensive approach. **DESPRO** supports ATCs in development of water supply and waste water treatment sector.

MAP OF ONGOING PROJECTS

10 amalgamated territorial communities in **6** partner oblasts are cooperating with **DESPRO** in 2017-2020

The projects receive co-financing from public budgets, households and **DESPRO**.
